-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-10, drawn to a holder, classified in class 220, subclass 737.
- II. Claims 11-20, drawn to method of use, classified in class 29, subclass 428.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product. See MPEP § 806.05(h). In the instant case, the product can be used to hold a solid bar of metal rather than the beverage can.

Because these inventions are independent or distinct for the reasons given above and have acquired a separate status in the art in view of their different classification, restriction for examination purposes as indicated is proper.

During a telephone conversation with Mr. Ryan Dupuis on August 2, 2006 a provisional election was made with traverse to prosecute the invention of the holder, claims 1-10. Affirmation of this election must be made by applicant in replying to this Office action. Claims 11-20 have been withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3-7 and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Jones. Jones discloses a holder for supporting a cylindrical beverage can, the holder includes a receptacle with an upper edge (the edge of opening 19) encircling the open top end of the receptacle and mouth recesses (the triangular portions of the opening 19 which are adjacent to each of the expansion slits 20), a handle 21, the handle is located approximately 90 degrees about the circumference of the holder from two diametrically opposite mouth recesses.

Claims 1, 2, 5, 7, 8 and 10 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Gustafson et al.

Claims 1, 3 and 7-9 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Statz et al.

Foreign priority hasn't been claimed for Canadian document No.2,359,597.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen J. Castellano whose telephone number is 571-272-4535. The examiner can normally be reached on increased flexibility plan (IFP).
